Maximising Independence

How to access Enliven Support

1. Have a chat to your ACC case manager or GP who can refer for Enliven home support services via Geneva Healthcare. Alternatively, you can call us on 0508 ACC ENLIVEN.
2. Once referred, one of our coordinators will visit you, and tailor a care package that suits your needs. You are able to have a support person present for this visit if you wish.
3. Following this visit we will work with your funder(s) and rehabilitation team to individualise a service plan, and allocate a care team that suits your needs.
4. We look forward to working alongside you, your family/whanau, and your rehabilitation team to achieve your goals and maximise your independence.

If you need short or long term home support following an injury, Enliven can help you get on with life.

Why choose Enliven?

1. Enliven offers a range of support services

We provide in-home support which meets your specific needs; this may include personal care support, overnight care, household management, exercise programmes, social integration and child care.

2. We work with you and others involved in your care

We will tailor a service plan in partnership with you, your family/whanau and other health providers involved in your rehabilitation. We will then work alongside you to achieve your goals at every stage of your rehabilitation journey.

3. Enliven has qualified support teams

Our support workers are NZQA trained in home & community support, and all our service coordinators are registered health professionals. We also provide comprehensive client specific training for complex cares.

4. Enliven is experienced

We pioneered restorative home-based support in New Zealand in 2004. And have had health professionals on our team before any other home-based support providers.

5. Enliven is part of your local community and an organisation you can trust

Staff from our local offices are experienced and live in your community. Enliven is part of PSN a local charitable organisation with more than 130 years social service experience.

6. Enliven is accountable and measures outcomes

We go beyond the minimum standards for home and community support by obtaining full and independent feedback from clients.

7. Enliven provides home support through various funders

We are able to support you through various funders, including ACC, the DHB, the MOH or privately. If you already have Enliven home support and have an accident, your support can continue without involving another provider.
